

Lubricants

All Co-op Petroleum products are blended using quality ingredients to meet specifications established by the Canadian General Standards Board (CGSB), the American Petroleum Institute (API), and the Society of Automotive Engineers (SAE). These agencies establish acceptable specification ranges for each petroleum product.

We offer only high quality petroleum products including synthetic motor oil formulations, for farm, construction, or off-highway equipment. These Motor oils are specifically designed to meet or exceed all the current manufacturers' specifications for maximum engine protection to keep your vehicles and machinery running at peak performance. In addition our products are manufactured for use in tough Canadian weather; like extreme cold and hot, dry, dusty conditions. Also helps older engines work better, or withstand water contamination. Our line of products is recognized as an industry leader in the area of gear protection, water demulsification and friction material operations.

Please give us a call at [250-652-3212](tel:250-652-3212) or e-mail to customerservice@peninsulaco-op.com

Here are just a few of our Products:

[CO-OP® D-MO* - Heavy-duty Synthetic Diesel Motor Oil](#) (1)- an advanced motor oil formulation which provides superior performance, meeting or exceeding other competitive products and current API service classifications. Specific grades are approved for the most stringent and demanding North American and European service applications. Co-op D-MO oil drain intervals can be extended past the engine manufacturer's normal recommendations. [Specifications](#)

Available in:

- 12 x 1 litre cases
- 4 x 5 litre cases
- 2 x 10 litre cases
- 20 litre pails
- 110 litre drums

205 litre drums

Bulk

(Please Note: not all grades are available in every container size)

CO-OP® D-MO* SL - Heavy-duty Synthetic Diesel Motor Oil (2)- has the same advanced motor oil formulation as co-op D-MO, with the added advantages of Group IV synthetic base oil. It provides superior performance and is especially effective at extreme low temperatures and can reduce engine wear due to cold starts by as much as 60%.

[Specifications](#)

A UNIQUE MOTOR OIL FOR A CANADIAN CLIMATE

Available in:

12 X 1 litre cases

4 x 5 litre cases

20 litre pail

205 litre drum

(Please Note: not all grades are available in every container size)

CO-OP® Trans-hydraulic Fluid - All-Purpose Fluid for Tractor Hydraulics, Transmissions and Differentials (3)- a premium "All-Purpose" product for use in farm, construction, or off-highway equipment. It was developed to meet manufacturer's recommendations for a single fluid for powershift, hydrostatic transmission differential, final drive, wet brake, wet clutches and hydraulic components. It is recognized as an industry leader in the area of gear protection, water demulsification and friction material operations. [Specifications](#)

ALL-PURPOSE PRODUCT PROVIDES YEAR-ROUND PERFORMANCE, EVEN AT TEMPERATURES AS LOW AS -30°C

Available in:

4 x 5 litre cases

2 x 10 litre cases

20 litre pails

110 litre drums

205 litre drums

(Please Note: not all grades are available in every container size)

CO-OP® Super T-HF SL (4)- All-season Fluid for Tractor Hydraulics, Transmissions and Differentials - a premium "All-Season" product for use in farm, construction or off-highway equipment. It was developed to meet manufacturer's recommendations for a single fluid for powershift, hydrostatic transmission differential, final drive, wet brake,

wet clutches and hydraulic components. It is recognized as an industry leader in the area of gear protection, water demulsification and friction material operations. With superior performance in extreme cold T-HF *SL* maintains the same performance characteristics in more seasonal temperatures. [Specifications](#)

SUPERIOR PERFORMANCE EVEN IN EXTREME COLD (-45°C)

Available in:

2 x 10 litre cases

20 litre pails

110 litre drums

(Please Note: not all grades are available in every container size)

CO-OP® HD7* Motor Oil - For Gasoline and Moderate Service Diesel Engines (5)- has delivered proven performance through billions of kilometers of city or on/off highway service. [Specifications](#)

THE IDEAL CHOICE FOR OLDER ENGINES - GASOLINE AND DIESEL, BUILT BY ALL MAJOR MANUFACTURERS

Available in:

12 x 1 litre cases

4 x 5 litre cases

2 x 10 litre cases

20 litre pails

110 litre drums

205 litre drums

(Please Note: not all grades are available in every container size)

Sonic® MP Gear Oil with CGT (6)- formulated to provide superior lubrication in passenger cars, farm equipment, heavy and light duty trucks, off-highway equipment and industrial gear applications. Sonic® MP offers excellent protection against rust and corrosion, even in stationary applications. CGT is Clean Gear Technology that reduces deposits on gear deposits, extends equipment life and extends fluid life. [Specifications](#)

EXCELLENT FOR APPLICATIONS WHERE WATER CONTAMINATION MAY OCCUR.

Available in:

12 x 1 litre cases (80W90 only)

4 x 5 litre cases

2 x 10 litre cases (80W90 only)
20 litre pails
110 litre drums
205 litre drums
(Please Note: not all grades are available in every container size)

Sonic® MP Gear Oil SL (7)- a synthetic-based, heavy-duty gear lubricant that is blended for year-round applications, including sub-zero operating conditions. It is approved for extended drain application and extended warranty (750,000 mile Eaton Roadranger) requirements. [Specifications](#)

NOT RECOMMENDED FOR USE WITH SILICONE SEALS AND GASKETS

Available in:
20 litre pails

Sonic* - Premium Quality Multi-Purpose Greases (8)
APPLICATIONS INCLUDE WHEEL BEARINGS, UNIVERSAL JOINTS, VARIOUS INDUSTRIAL APPLICATIONS, BALL JOINTS, ELECTRIC MOTORS, CLUTCH THROWOUT BEARINGS, AND CHASSIS FITTINGS.

[Specifications for all greases](#)

Sonic* Blue Guard - lithium complex, multi-purpose grease that has excellent performance in the areas of rust and oxidation, resistance, anti-wear, and extreme pressure.

Available in:
180 kg drums
17 kg pails
55 kg kegs
400 gram cartridges in packs of 10 with 4 packs in a case
(Please Note: not all grades are available in every container size)

[Specifications](#)

Sonic*Moly Guard SL - semi-synthetic, lithium complex, multi-purpose grease. It offers excellent performance at low temperatures and can be used in applications that call for up to 3% molybdenum disulphide (moly).

Available in:
55 kg kegs
400 gram cartridges in packs of 10 with 4 packs in a case

[Specifications](#)

Sonic* Flow-Rite - designed for automated greasing applications.

Available in:

17 kg pails

55 kg kegs

(Please Note: not all grades are available in every container size)

[Specifications](#)
